

**NEW WHEEL ALIGNERS DATA BANK UPDATE**

Dear Customers,

a new release of wheel alignment DATA BANK is now available.

The list of new vehicles included can be downloaded from the SIRIO data bank website  
=> <http://databank.sirioequipment.com>

you can place your orders using the following codes:

**WS / WD series (CCD Type) + 3D ALIGNERS**  
(supplied after October 2010)**Update via Internet**

**STDA110** - standard + Canada/USA database

**STDA112** - standard + Canada/USA/Australia database

**STDA137** - standard + Canada/USA + Truck database

**Net Price euro 265 each**

**Update via USB key and Smart Card**

**STDA110/C** - standard + Canada/USA database (S220, S185, S178, S500)

**STDA112/C** - standard + Canada/USA/Australia database

**Net Price euro 320 each**

Discount 20% for orders of 5 pieces or more

To correctly visualize all the databanks, please update the software to minimum version 4.3.5.4

**BTH ALIGNERS**

(machines supplied before October 2010) (WS – WD versions excluded)

The available databank is a **DB25** upgrade kit that can be ordered by using the codes listed below.

**For Car wheel aligners with software version prior to 7.03**

It is necessary to install both new software and data bank update:

**STDA61/25/Sirio** – full DB (standard + Canada/USA cars) for S178 and S500 series

**STDA63/25/Sirio** – full DB (standard + Canada/USA cars) for S220 and S185 series

The above references include software update too.

**For Car wheel aligners with software version 7.03 or greater**

No need to load new software, but only data bank:

**STDA80/25** – full DB (standard + Canada/USA cars) for S178 and S500 series

**STDA82/25** – full DB (standard + Canada/USA cars) for S220 and S185 series

**For Truck wheel aligners having software version higher than 7.03**

**STDA103/25** – standard + OEM + USA database

Please note: all data banks include all OEM as standard (there is no difference between version with or without OEM as in the past).

**Net Price euro 320 each**

Discount 20% for orders of 5 pieces or more

N. 148- 5/10/2018

*Info*

#### **SMART CARD**

In case of loss or destruction of Smart Card the NUMBER of the previous CARD is required. This will allow to cancel the old number from our system and to associate to the new CARD the data bank of the CARD that was lost. Without this number it will not be possible to cancel the old one, so the new CARD must be purchased along with the new data bank.

In this case the total cost will be the total of a smart card with new code and full installation SW+the cost of new data bank.

**Net Price for SMART CARD + SW => euro 530**

Kind regards

SIRIO Team
